69.7 K
 REPORTED ACTIVITIES

* Figures for refugees and migrants in-transit to other countries are not included in the totals on the top as they can be -by definition- recipients of services in more than one country.

** As of December 2021

*** This includes all population groups (refugees and migrants in destination, in transit, pendular, returnees & affected host communities).

**** These figures represent the sum of Venezuelan refugees, migrants and asylum-seekers reported by host governments. They do not necessarily imply individual identification, nor registration of each individual, and may include a degree of estimation, as per each government's statistical data processing methodology. As numerous government sources do not account for Venezuelans without a regular status, the total number of Venezuelans is likely to be higher.
